The DigitalLoom
Shaping Ideas Into Reality

FOR GENERAL CONTRACTORS · AT A GLANCE

AI READINESS AND DISCOVERY

AI *Aides*

Find where AI can help your business first.

WHAT IT DOES
A short discovery that shows where AI can help your teams first.

WHO IT HELPS
Executives, preconstruction and operations leaders.

HOW
We look at how your teams work today and agree the first place AI is worth trying.

Talk — your goals and pain points
Discover — how your teams work today
Pick — the first place AI fits
Plan — what to build and what it takes

WHAT A DISCOVERY LOOKS AT

WE LOOK AT

- How bids get leveled and compared
- Where bid and project documents live
- How cost and schedule risk is tracked
- Who owns improving the process

YOU GET
A short report
Where AI fits first, and what it would take.

EXAMPLE AIDES, SHAPED TO YOUR PROCESS

Examples

Bid leveling
Lines up sub bids against your scope sheet and flags gaps and exclusions.

Design check
Compares submittals with the spec before issues become RFIs.

Risk early warning
Watches cost and schedule signals so drift shows up early.

Field logs and RFIs
Turns field notes and photos into daily logs and RFI drafts.

What it does for each role

Preconstruction	See where AI could speed up bid leveling and scope checks.
Executives	A clear view of where AI can help first, and what it takes.
Operations	Spot the processes worth improving first.
Project teams	Examples for submittals, RFIs and daily logs.
IT and data	Know the data gaps before anything is built.

Why start here

- **Starts small**, a conversation, then a focused discovery.
- **Shaped to you**, built around how your teams already work.
- **Construction first**, examples from preconstruction and the field.

Who we are. The Digital Loom builds software and AI for construction teams, starting from how they already work.

Our locations

MA, USA — HEADQUARTERS
Indore, India — HEADQUARTERS
Noida, India — DELIVERY CENTER
